# Compliance & Ethics Education

## ETHICS Contribution

- Ethics members are key players in seminars and training programmes
- Education platform under development
  - Compliance & Ethics Training and Education materials / Best Practices Sharing
  - Tools to raise business ethics awareness
- Continuing education / Educational partnership with Universities and Schools (VPMC in France – Business Ethics course for Health care Industry professionals or stakeholders)
- Conferences on Compliance and Ethics related matters, through sponsorship or partnership (PCF congress in Europe, Asia and Latin America; Sciences Po/Seton Hall / INSEAD for Compliance & Ethics professionals).
- Webinars, educational web based resources, articles...

# Ethics evolution for developing more external focus

- Become a reference network for external stakeholders
- Many evolutions in our activities or organizations have often resulted from external authorities / regulators or self regulation bodies
- Ambition at ETHICS is to be a leading voice in the future evolutions:
  - initiate/participate to public debates
  - position papers
  - recommendations/proposals
- Support developing self-regulation
- Development interactions with external stakeholders on key matters and new trends (e.g.: Transparency,...)
